1. It is noted here that Amendment B filed October 8, 2002 has not been entered.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 22-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recitation "wherein each of the movement plates is configured to receive a tray", found in lines 6-7 of claim 22, is unclear since a single movement plate is recited. There is no antecedent basis for a plurality of movement plates.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 10-29 are rejected under 35 U.S.C. 102(b) as being anticipated by Lee et al.

Lee et al. disclose a multi-stacker 14 including stacker frame 20, 22, guide frame 20, 24 and movement plate 54. Fig. 6 of Lee et al. show tray plates 15 stacked on the movement plate 54.

6. Applicant's arguments with respect to claims 10-29 have been considered but are moot in view of the new ground(s) of rejection.
